

February 11, 2022

Dear Members of INWES,

Happy International Day of Women and Girls in Science!!

As an official NGO partner of UNESCO and NGO of consultative status with the UN ECOSOC, INWES joins in the celebration of this special day to celebrate and promote women and girls in science, especially among our members.

Science and gender equality together are vital for a sustainable world and only through the full participation of women and girls in science can we achieve a better future for all. We recognize and congratulate all women scientists for their contributions in their respective fields.

Please share your activities on this special day among INWES members in our facebook, tweeter, LinkedIN or Youtube pages. We also look forward to receiving articles on your activities for our next newsletter.

Let us continue with our efforts to build an environment that is more gender equal and inclusive so that we can also bring out the full potential of our future women scientists and engineers.

Sincerely,

Jung Sun Kim, Ph. D.

INWES President, 2021-2023
